

Name	Description	Details	Photo
<p><i>Amelanchier alnifolia</i> 'Smokey Saskatoon' Serviceberry</p>	<p>Produces an abundance of half inch-diameter purple fruits that are extremely sweet and juicy. Ripens in early summer. Excellent eaten off the bush. Xeriscape and appealing to birds.</p>	<p>H 4-6' W 4-6' Zone 2</p>	
<p><i>Fragaria x ananassa</i> 'Albion' Everbearing Strawberry</p>	<p>Produces a bright red strawberry bursting with flavor. Firm texture. High yielding and tolerant of heat.</p>	<p>H 12" W 12-24" Zone 3</p>	
<p><i>Fragaria x ananassa</i> 'Ever Sweet' Everbearing Strawberry</p>	<p>The day length neutral plants produce fruit first in spring and then in subsequent six-week intervals throughout the summer and into fall, displaying good disease resistance through the season.</p>	<p>H 6-10" W 36" Zone 4</p>	<p>Photo Credit: Walters Gardens Inc.</p> 
<p><i>Fragaria x ananassa</i> 'Fort Laramie' Everbearing Strawberry</p>	<p>Large, bright scarlet-red berries with a sweet aroma and delicious taste. Produces many runners that make this variety ideal for ground planting. Bears fruit in early summer. Does best in full sun with well-drained soil.</p>	<p>H 6-10" W 36" Zone 3</p>	
<p><i>Fragaria x ananassa</i> Ozark Beauty Everbearing Strawberry</p>	<p>Produces large, delicious berries with juicy texture. Grows best in full sun with well-drained soil. Blooms with white blossoms May to August.</p>	<p>H 8-10" W 8-12" Zone 4</p>	

Name	Description	Details	Photo
<p><i>Fragaria ananassa</i> 'Ruby Ann' Everbearing Strawberry</p>	<p>Combining showy flowers and delicious fruit, this everbearing strawberry grows as both an ornamental and edible perennial fruit. In addition to the sweet, medium sized fruit, 'Ruby Ann' produces beautiful ruby-red flowers,</p>	<p>H 8-12" W 24-36" Zone 4</p>	
<p><i>Fragaria 'Berry Hill Montana'</i> Strawberry Berries Hill Montana</p>	<p>A great choice for hanging baskets. Produces beautiful blooms and sweet berries.</p>	<p>H 10-12" W 10-12" Zone 4</p>	
<p><i>Fragaria</i> Summer Breeze Rose Strawberry</p>	<p>Beautiful rose-shaped double flowers and delicious, juicy, bright red berries. The unique semi-double flowers hold on to their petals for lots of color on the plant. Deep pink flowers.</p>	<p>H 12-16" W 12-16" Zone 3</p>	
<p><i>Juglans nigra</i> Black Walnut</p>	<p>Attractive, large, hardy, oval. A heritage tree. Grows rapidly when young but slows down with age. It has edible nuts, and the leaves are green throughout the season.</p>	<p>H 40-50' W 25-30' Zone 3</p>	
<p><i>Lonicera caerulea kamchatica</i> Aurora Haskap Berry or Honeyberry</p>	<p>Sweeter and more productive than other honeyberries, with a slightly larger fruit. Eat fresh or use in baking or in jams and jellies. A good pollinator. Pear with any Honeyberry except Aurora.</p>	<p>H 3-4' W 3-4' Zone 3</p>	

Name	Description	Details	Photo
<p><i>Lonicera caerulea</i> Indigo Gem Haskap Berry or Honeyberry</p>	<p>Easy-to-grow berry that tolerates poor soil and is not bothered by pests or diseases. Mid-June fleshy berries are sweet and tart with a blueberry-like flavor; wonderful fresh or dried. Yields 5 to 10 lbs. of fruit. Requires cross-pollination by varieties with a similar bloom time, such as Polar Jewel or Aurora.</p>	<p>H 4-5' W 4-5' Zone 2</p>	<p>Photo Credit: McKay Nurseries</p> 
<p><i>Lonicera caerulea</i> Polar Jewel Haskap Berry or Honeyberry</p>	<p>A dense, compact, and hardy shrub with clean foliage, producing large, sweet, bluish-purple berries in early summer; must have another honeyberry variety for cross pollination; selected for better fruit production and higher yields.</p>	<p>H 5' W 5' Zone 2</p>	<p>Photo Credit: Mill Creek Nursery</p> 
<p><i>Malus</i> 'Gloria' Apple Tree</p>	<p>Medium-sized, red speckled fruit with a sweet and slightly spicy strawberry flavor. Great for eating and cooking. Prefers a moist, well-drained soil. Requires another apple within a city block for pollination.</p>	<p>H 13' W 13' Zone 3</p>	<p>Photo Credit: Bron & Sons</p> 
<p><i>Malus</i> Kerr Apple Crab</p>	<p>An heirloom with showy clusters of lightly fragrant white flowers with pink overtones emerge in mid spring. Fruits are showy purple and come in abundance in mid fall. Light fall frost enhances the flavor. Excellent for making jams, jellies and the best apple juice or cider ever. Resistant to fire blight and winter hardy.</p>	<p>H 25' W 25' Zone 2</p>	

Name	Description	Details	Photo
<p><i>Malus</i> 'Haralred' Apple Tree</p>	<p>Red selection of Haralson apples. Extremely hardy, juicy, firm, tart, and stores well. Ripens in early October. Often fruits the first year. Needs pollinator.</p>	<p>H 12-15' W 14' Zone 3</p>	
<p><i>Malus</i> 'Hazen' Apple Tree</p>	<p>The fruit is large and dark red. Flesh green-yellow, juicy. The flavor is sweet but mild, pleasant for eating, cooking, and as a dessert apple. An annual bearer. A natural semi-dwarf tree growing to about 10 to 15 feet in height. Short storage life. Hardy variety. Does very well without spraying.</p>	<p>H 10- 15' W 10-15' Zone 4</p>	<p>Photo Credit Baileys Nursery</p> 
<p><i>Malus</i> 'Honeycrisp' Apple Tree</p>	<p>Pinkish-white flowers provide a showy spring display. Later produces large, mottled red over yellow fruit with exceptional flavor and crispness. It lasts for up to 7 months. Annual producer. Great for fresh eating, cooking, or pressing for cider. Pollinates well with Snowsweet.</p>	<p>H 20' W 20' Zone 3</p>	
<p><i>Malus</i> 'Norland' Apple Tree</p>	<p>One of the earliest summer apples to ripen. Well suited to very cold regions. A natural semi-dwarf tree that is precocious and productive. Attractive color, small to medium fruit. Great eating and cooking. It is winter hardy. Keeps for about 16 weeks in cold storage. Fruit must be picked before full maturity for storage or use.</p>	<p>Zone 2</p>	<p>Photo Credit Baileys Nursery</p> 

Name	Description	Details	Photo
<p><i>Malus</i> 'Prairie Magic' Apple Tree</p>	<p>Stands out because of its exceptional cold hardiness and size of fruit. The flesh is crisp, white, and sweet. Delicious eaten fresh. Needs another mid-season blooming apple for pollination.</p>	<p>H 25-30' W 12-15' Zone 3</p>	
<p><i>Malus</i> 'Red Duchess' Apple Tree</p>	<p>A red selection of 'Duchess of Oldenburg'. Very hardy, medium to large size red apple. The fruit is tart and juicy. Good for eating, but best for pies and sauces. Abundant fruit, annual bearer. Short storage life.</p>	<p>Zone 3</p>	<p>Photo Credit Baileys Nursery</p> 
<p><i>Malus wildung</i> 'Snowsweet' Apple Tree</p>	<p>A red apple with a delightfully sweet taste and slight tart balance. The snowy white flesh is slow to turn brown after cutting. Blooms and fruits in mid to late season. It is very winter hardy and disease resistant. Pollinates well with Honeycrisp.</p>	<p>H 15' W 15' Zone 3</p>	
<p><i>Malus</i> 'State Fair' Apple Tree</p>	<p>Medium-sized red striped fruit. The flavor is sprightly tart and good for eating and baking. Good texture, semi-acid to sweet. All-purpose apple. One of the better early apples for northern locations. Short storage life.</p>	<p>H 20' W 20' Zone 3</p>	

Name	Description	Details	Photo
<p><i>Malus</i> 'Yellow Transparent' Apple Tree</p>	<p>The skin is clear yellow, and the flesh is white. A very productive tree. Best used for cooking. Heavy producer. Pick before maturity for better storage life. Scab resistant.</p>	<p>H 12-15' W 12-15' Zone 3</p>	<p>Photot Credit Baileys Nursery</p> 
<p><i>Malus</i> 'Zestar' Apple Tree</p>	<p>An early apple that is crisp and juicy! Best known for its excellent sweet tart flavor, it has a much longer storage life than other early apples. Excellent for fresh eating and cooking. Ripens in late August.</p>	<p>H 12-15' W 12-15' Zone 3</p>	<p>Photo Credit Baileys Nursery</p> 
<p><i>Prunus cerasus</i> 'Evans Bali' Cherry</p>	<p>Deep, dark red fruit 1" in diameter and excellent for baking and fresh eating. The fruit is semi-sweet. Perfect for pies. Extremely hardy buds. A small tree.</p>	<p>H 15' W 15' Zone 2</p>	<p>Photo Credit: Bailey Nurseries</p> 
<p><i>Prunus x Kerrasis</i> '<i>SK Carmine Jewel</i>' Carmine Jewel Bush Cherry</p>	<p>Produces loads of wine-colored cherries in August. Fruits have a small pit and are excellent for toppings, pies, or preserves. Self-pollinating.</p>	<p>H 5-6' W 5-6' Zone 2</p>	

Name	Description	Details	Photo
<p><i>Prunus x kerrasis</i> 'Juliet' Cherry</p>	<p>Notably lower acidity and high sweetness make this one of the best cherries for eating fresh. Fruits have large pits. Harvest in late summer. Winter hardy.</p>	<p>H 5-6' W 5-6' Zone 2</p>	
<p><i>Prunus americana</i> 'American' Plum</p>	<p>A native plum. Fragrant showy large white flowers with bright red fruit in August or September. Fall foliage ranges from electric red to pale yellow. Plums eaten fresh or used in jellies and preserves.</p>	<p>H 10-12' W 10-12' Zone 3</p>	
<p><i>Prunus</i> 'Mount Royal' Plum Tree</p>	<p>European semi-dwarf variety that tastes great when eaten right off the tree. Tender and juicy fruit. Ripens in mid-August. Self-fertilizing needs no pollinator. Considered the best hardy blue cultivar. Needs protection, use tree wrap in the winter.</p>	<p>H 8-12' W 8-12' Zone 4</p>	
<p><i>Prunus</i> 'Superior' Plum Tree</p>	<p>One of the best plums available on the market today. Dark red fruit is sweet and juicy. Ideal for eating, or in jams or jelly. Ripens late August and often fruit the first year. Recommend American, Toka, or Waneta plum for pollination.</p>	<p>H 15' W 15' Zone 4</p>	

Name	Description	Details	Photo
<p><i>Prunus</i> 'Toka' Plum Tree</p>	<p>One of the best plum pollinators but does require another pollinator. The fruit has reddish-bronze skin with richly flavored, apricot-colored flesh. Produces heavy crops that ripen late August into September. Cross with a native plum.</p>	<p>H 10-15' W 10-15' Zone 3</p>	
<p><i>Prunus</i> 'Waneta' Plum Tree</p>	<p>One of the best American plums. The fruit is large, reddish, sweet, juicy and of excellent quality. Ripens in August and produces well the first season. Needs a pollinator. Suggest Superior or Toka or cross with a native plum.</p>	<p>H 10-15' W 10-15' Zone 3</p>	
<p><i>Prunus tomentosa</i> Nanking Cherry</p>	<p>Spreading, deciduous, Flower is fragrant, long lasting, Pink or white, and Thrives in normal to moist soil.</p>	<p>H 6-10 W 15 Zone 2</p>	<p>Photot Credit McKay Nursery</p> 
<p><i>Prunus virginiana</i> Chokecherry</p>	<p>Native to the Rocky Mountains. A large shrub or small tree that will withstand harsh conditions. Xeriscape plant.</p>	<p>H 15-20' W 10-15' Zone 3</p>	<p>Photo Credit: Bailey Nurseries</p> 

Name	Description	Details	Photo
<p><i>Pyrus communis</i> Chadwick/Flemish Beauty Pear</p>	<p>Large flavor filled variety that produces tasty fruit. The exterior of the pear is a creamy yellow color that flushes red when ripe. It was originally known as the “Sweetmeat of the Woods.” Fruits ripen in mid-September to October.</p>	<p>H 15’ W 15’ Zone 4</p>	
<p><i>Pyrus</i> ‘Luscious’ Pear Tree</p>	<p>Early maturing. Delicious and juicy fruit that is bright yellow and blushed with red. Disease resistant to fire blight.</p>	<p>H 20 W 15 Zone 4</p>	<p>Photo Courtesy of Applewood Nursery</p> 
<p><i>Pyrus parker</i> ‘Parker’ Pear Tree</p>	<p>This upright tree produces large, yellow fruit with a red blush. It is very productive and vigorous. It will need a pollinator.</p>	<p>H 15’ W 15’ Zone 4</p>	
<p><i>Pyrus</i> ‘Summercrisp’ Pear Tree</p>	<p>This pear tree is an annual bearer. The fruit itself is a pyramidal form shape that is about 3 inches in diameter and 3.5 inches long. Blooms appear in early May and harvest the fruit in mid-August. Use Parker for pollinator.</p>	<p>H 15’ W 15’ Zone 3</p>	

Name	Description	Details	Photo
<p><i>Rheum rhabarbarum</i> 'Canada/Crimson Red' Rhubarb</p>	<p>Large green foliage atop deep crimson-red stalks. Agreeably tart and great for pies or preserves.</p>	<p>H 24-48" W 24" Zone 3</p>	
<p><i>Ribes uva-crispa</i> 'Hinnomaki' Red Gooseberry</p>	<p>It is almost thornless and picks well. Mildew resistant. Large, oval, berries become dark red in mid-summer when ripe and ready for eating on old wood. Delicious in pies and jellies.</p>	<p>H 4' W 6" Zone 4</p>	<p>Photo Credit Mckay Nursery</p> 
<p><i>Rubus idaeus</i> Boyne Raspberry</p>	<p>An attractive red raspberry with a delicious, sweet flavor. Very productive and hardy, producing juicy berries in early July.</p>	<p>H 3-4' W 3-4' Zone 3</p>	
<p><i>Rubus idaeus</i> Fall Gold Raspberry</p>	<p>A rare and exciting raspberry with the same delicious taste as red varieties. Produces a second crop after a late summer to fall harvest. Magnificent gold berries.</p>	<p>H 4' W 3' Zone 3</p>	
<p><i>Rubus idaeus</i> Souris Raspberry</p>	<p>Souris is an improved red, summer-bearing raspberry that ripens in July. This self-pollinating plant is sweeter than the Boyne raspberry and produces more fruits. Also, this shrub is better at spider-mite resistance overall.</p>	<p>H 3-4' W 3-4' Zone 3</p>	

Name	Description	Details	Photo
<p><i>Sambucus</i> York Elderberry</p>	<p>Largest berries of all elderberries. Juicy, sweet, purplish black berries. Good for jam, jelly, pie, and wine. Hardy, vigorous, highly productive bush. Large, creamy white flowers in early summer and nice fall foliage.</p>	<p>H 6-8' W 6-8' Zone 4</p>	
<p><i>Vitis hybrida</i> 'Edelweiss' Hybrid Grape</p>	<p>Produces medium-sized fruit that is sweet and pleasantly flavored. Green-white color with high sugar content. Perfect for eating fresh or making white wine.</p>	<p>H 10-15' W 3-4' Zone 4</p>	
<p><i>Vitis hybrida</i> 'Kay Gray' Hybrid Grape</p>	<p>This hardy white grape is perfect for eating directly off the vine or for wine production. This vine produces medium to large berries in small clusters.</p>	<p>H 10-30' W 2-3' Zone 4</p>	
<p><i>Vitis hybrida</i> 'Somerset' Seedless Hybrid Grape</p>	<p>This seedless table or juice grape has a superb flavor. It bears tight clusters with small, deep-red berries. Earliest edible berries produced in the pink stage, which usually occurs in August. However, if plucked at full red, these delicious fruits are sweeter and more flavorful.</p>	<p>H 4-6' W 1-2' Zone 4</p>	<p>Photo courtesy of Bailey Nurseries</p> 

Name	Description	Details	Photo
<p><i>Vitis labrusca hybrida</i> 'Valiant' Hybrid Fox Grape</p>	<p>A very hardy grape vine with dark purple fruit. Green leaves turn golden yellow in fall. Fruits are excellent for jams, jellies and juice or wine.</p>	<p>H 20' W 2' Zone 2</p>
